SAP S/4 HANA MM COURSE CONTENT

S/4 HANA Sourcing and Procurement

- Introduction to SAP S/4HANA
- SAP S/4HANA user experience
- SAP HANA powers SAP S/4HANA
- SAP Activate for SAP S/4HANA
- Path to SAP S/4HANA
- Comparing the Paths SAP S/4HANA
- Scope Item Level Implementation and Configuration for Procurement
- SAP S/4HANA Cloud Configuration and Integration
- Native Integrations with Ariba
- Fit-to-Standard Workshop
- SAP S/4HANA Cloud – Procurement Overview
- Organizational Units and System Data
- SAP S/4HANA Cloud Business Process Testing
- Real-Time Reporting and Monitoring
- Master Data Management & Migration
- SAP Activate for SAP S/4HANA Cloud SAP Activate, Lifecycle Management and Best Practices
- Overview and Master Data
- Explain the Procure to Pay solution capabilities
- Describe the Business Partner approach
- List changes for the Material Master
- Procurement Process
- Describe operational procurement
- Receive goods receipts and goods movements
- Describe invoice processing
- Describe sourcing and contract management
- Explain supplier information and evaluation
- Other new Functions and Changes in SAP S/4HANA
- Explain further SAP Fiori apps
- Provide an overview about further simplifications
- New Functionally in Material Requirements Planning (MRP) in SAP S/4 HANA Enterprise Management
- Sap Transportation Management
- Operational Purchasing
- SAP Hybris
- Commodity Procurement

- Integration with Cloud Application
- Integration of SAP Arbia buying with SAP S/4HANA
- Invoice and payables Management
- Automated and Direct Source-to-Pay Processes
- Contract and Source Determination
- Configuration for Self-Service Procurement
- Request For Quotation Configuration
- Legal Content Management
- Supplier Discovery, Qualification, and On Boarding
- Creating a Demand Planning Approach in SAP S/4 HANA
- Activate or Deactivate SAP S/4 HANA-Based Output
- APIs For Integration with Sourcing and Procurement
- SAP S/4 HANA Integration with the Ariba Network for Po/Invoice Automation
- SAP Model Company
- SAP S/4HANA Enterprise Management, LoB solutions and add-ons
- SAP S/4HANA embedded analytics
- Integration between SAP S/4HANA Core and SAP Cloud solutions
- SAP S/4HANA Enterprise Management: Motivation and Overview
- Explaining the Motivation Behind S/4HANA
- Describing the Main Components of SAP S/4HANA Enterprise Management
- SAP S/4HANA Enterprise Management: Simplification List
- Checking the Simplification List
- New User Experience: SAP Fiori UX

- Implementation Overview
- On-Premise SAP S/4HANA
- SAP S/4HANA Cloud
- SAP Activate, SAP Best Practices, and SAP Model Companies: Quick Start Approaches and Materials for SAP S/4HANA

Organizational Structure

- SAP S/4HANA Enterprise Management Organization Structure
- Organizational Structure Objects
- Company Code, Plant, Storage Location, Purchasing Org, and Purchasing Group Creation

Master Data

- Material Masters and Material Groups
- Batch Management and Serialization
- Material Master Updates in SAP S/4HANA
- Supplier Master Setup and Supplier Creation
- Business Partner

Operational Procurement

- Requisition-to-Pay Process
- Procurement of Stock, Consumable, and External (Service) Items
- Self-Service Procurement
- Requirement Processing in SAP S/4HANA Sourcing and Procurement
- Configuration for Self-Service Procurement
- Integration with Cloud Applications

Automated and Direct Procurement

- Automated and Direct Source-to-Pay Processes
- Materials Requirements Planning
- Forecasting and Planning
- Contract and Source Determination
- Configuration
- Integration with SAP Ariba

Inventory Management

- Inventory Management in SAP S/4HANA
- Stock Management in SAP S/4HANA
- Goods Receipts
- Goods Issues
- Stock Transfers
- Transfer Postings
- Physical Inventory
- Reporting in Inventory Management
- SAP Ariba Integration
- Contracts Management
- Contract Creation

- Contract Consumption
- Contract Dashboard Reporting and Expiry Notification Setting
- Configuration
- Scheduling Agreement
- Customizing Scheduling Agreements
- Legal Content Management
- Customizing Legal Content Management

External Sourcing

- Sourcing Strategies
- Request for Quotation
- Request for Quotation Configuration
- Flexible Workflow
- Integration with SAP Ariba

Invoice and Payables Management

- Invoice Processing
- Accounts Payable
- Invoice Collaboration with the Ariba Network
- 11 Supplier Management
- Supplier Discovery, Qualification, and Onboarding
- Supplier Management
- Supplier Evaluation
- Configuration
- Integration with SAP Ariba

Reporting and Analytics

- Spend Visibility
- Contract Expiration
- Sourcing
- Supplier Performance
- Accounts Payable Analytics and Reportin
- Configuration
- Integration with Cloud Applications

Customizing the SAP Fiori UI

- The SAP Fiori User Interface
- User-Driven UI Tuning Options
- SAP Fiori Configuration
